ABOUT ME

I am a results-driven Python Developer with expertise in designing and developing scalable applications using modern frameworks and tools. Skilled in Django, Flask, and database management, I excel at turning complex problems into simple, efficient solutions. With a strong foundation in Data Structures, Algorithms, and full-stack development, I am committed to writing clean, maintainable code and contributing to impactful projects that drive innovation.

EDUCATION

B.S.C. in computer science

Raj School of Management of Science
Siswa Babatpur Varanasi

Intermediate

B.N.B Inter College
Mariahu, Jaunpur U.P.

PROFESSIONAL EXPERIENCE

Internship-DigiCoders Technologies pvt. ltd. Lucknow | June 2025 – Present

- Developed and maintained dynamic web applications using Python, Django, and MySQL/PostgreSQL, ensuring smooth and secure backend functionality.
- Built responsive and user-friendly interfaces with HTML, CSS, Bootstrap, and JavaScript, seamlessly integrated with Django templates.
- Designed and deployed admin dashboards, CMS panels, and e-commerce modules to enhance usability and business operations.

MY PROJECT

- **Hospital Management System** – A web-based application built using Python (Django), HTML, CSS, JS for managing patients, doctors, appointments, and billing with role-based access.
- **Online Food Delivery Web Application** – Built an Online Food Delivery Web Application with features like user authentication, cart management, and order placement using Django, HTML, CSS, and JavaScript. Gained hands-on experience in full-stack development and database management.
